Global Event News

This newsletter is a periodic communication to the trade show exhibitors, advertisers, and sponsors who continue to make our global events exceed expectations. To help you in your 2011 marketing planning, here's an update on the LP Gas industry's global events for next year.

2011 World LP Gas Forum, Doha, Qatar

As you likely heard, the 2011 World Forum exhibition sold out completely at the 2010 Forum in Madrid. The WLPGA events team visited the venue in Doha, Qatar last week and were able to secure approximately 30 additional booth spaces. 19 companies are already on the waiting list and will be placed when the new floor plan is completed. This leaves 11 more booths for the 2011 Forum. If you are interested in securing one of these last spaces, please fill out the [World Forum Exhibit Form](#) and email it back to RPecilunas@worldlpgas.com right away.

To explore advertising opportunities, please see the [World Forum Advertising Form](#) here.

For continuous updates, visit: www.wlpgas2011.com

And don't forget to mark your calendars for an unforgettable event in Bali, Indonesia in 2012!

2011 AEGPL Congress, Bucharest, Romania

The European LP Gas Association (AEGPL) Congress will be held from June 22-24, 2011 in Bucharest, Romania. This exceptional event provides an ideal forum for vibrant debate and education on LPG and its role in the European energy mix.

There is **still exhibition space available at the AEGPL Congress**. Fifty-eight companies have already secured their exhibit space with almost 70% of this show currently sold. To see who will be there and the booths still available, check out the show floor plan at this link: www.aegpl2011.com. To secure exhibition space before this show is sold out too, please fill out the [AEGPL Exhibit Form](#) and send it back to Rita Pecilunas at RPecilunas@worldlpgas.com.

The AEGPL Congress now offers sponsorship and advertising to help you showcase your products and services to this very targeted audience. Opportunities have just been announced and are detailed here on the [AEGPL Sponsorship and Advertising Form](#).

WLPGA North American-European Summit, Washington, DC: February 9, 2011

As part of the WLPGA's series of regional global gatherings, the next Exceptional Energy Summit will be held in Washington, DC on February 9, 2011. At this Summit, industry business leaders will exchange ideas, innovations, and business opportunities, and explore crucial issues to the LP Gas industry in the North American and European markets. This event is free for WLPGA members, and by invitation to others industry leaders. You can pre-register with Esther Assous at eassous@worldlpgas.com or by calling +33 1 58 05 28 09.

The event is hosted by the **Propane Education & Research Council**, the **National Propane Gas Association**, **AmeriGas/UGI**, and **Ferrellgas**, and offers a very limited number of sponsorships. These unique sponsorships include a table-top exhibit in the Summit Foyer, logo and company recognition, a complimentary lunch and reception for all attendees and sponsors in the exhibit area—and access to a very elite group of LP Gas decision-makers without the competition of a large trade show environment.

Currently four companies will be taking advantage of this opportunity: **Ragasco**, **Strategic Energy**, **Cavagna**, and **Touchstar**. Only ten table-top exhibit spaces will be

offered, so if you would like to participate, please fill out the [WLPGA Summit Sponsorship Form](#) and send it back right away to RPecilunas@WorldLPGas.com. Many thanks to **Cavagna** for sponsoring the event badge cords, and **Bergquist** for the meeting material. For more details on the event program, please contact Michael Kelly at mkelly@worldlpgas.com.
